Exit Reason	Trades	Win Rate	P&L
Trail SL	16	56%	+₹4,178
Manual Exit	2	100%	+₹6,144
Partial Target Partial	2	100%	+₹3,224
Direction Change	1	100%	+₹1,012

Performance by Market Regime

Regime	Trades	Win Rate	P&L
Normal	15	73%	+₹8,880
Consolidating	6	50%	+₹5,678

Expiry Day vs Normal Day

Day Type	Trades	Win Rate	P&L
Expiry Day	6	67%	+₹3,426
Normal Day	15	67%	+₹11,132

CE vs PE Breakdown

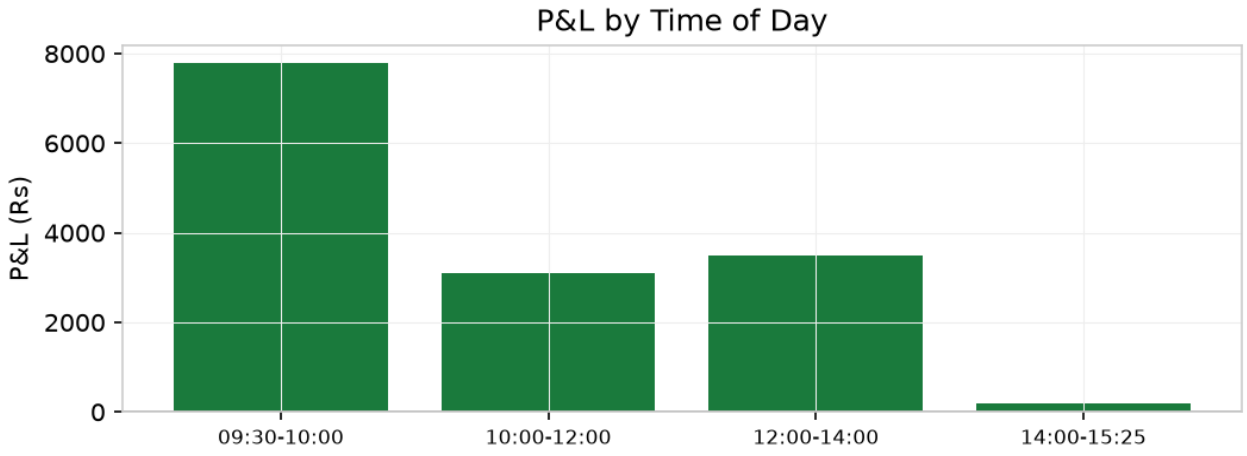

Option	Trades	Win Rate	P&L
CE	16	69%	+₹13,901
PE	5	60%	+₹657

Nifty 50 Points Captured

How many points the underlying Nifty 50 index itself moved in the trade's favor, separate from the option premium P&L above. Helps judge whether small option gains came from a real index move or just IV/theta noise.

Group	Trades	Total Pts	Avg Pts/Trade
All Trades	21	+14.8	+0.7 (peak avg +2.0)
CE	16	+0.0	+0.0 (peak avg +0.0)
PE	5	+14.8	+3.0 (peak avg +8.3)

Performance by Time of Day

Trail SL: Left on Table Analysis

Average gap between peak price and exit price on winning trades: 10.0 pts (9.3% of entry price). Lower is better, it means the trail SL is capturing more of the move before exiting.

Adaptive Parameter Changes

No parameter adjustments recorded this month.

Key Insights

- Other entries had the highest win rate (100%), Momentum the lowest (33%).
- Normal market conditions produced the most P&L; this month.
- Expiry day win rate: 67% vs normal day: 67%.
